## Summary

Hey there! I'm Anisha Jha, a passionate Computer Science enthusiast at Siksha 'O' Anusandhan, with a knack for web development and data analytics.

As the ultimate multitasker, I wear many hats – from being the Content Wizard to the Event Maestro at IEC SOA. I make sure workshops and seminars are not only informative but also filled with good vibes and great teamwork! Recently, I dived into the world of web development with the "Getting Started with Web Development" course. Now, I'm fluent in HTML, CSS, and JavaScript, and I'm ready to sprinkle some magic into user interfaces and beyond!

During a virtual stint with KPMG, I got my hands dirty with data – quality assessments, insights generation, you name it! Let's just say, I've got a knack for turning numbers into stories.

# Proficient in English (written and spoken), with a dash of creative flair, and a sprinkle of HTML, CSS, and Bootstrap expertise – I'm your go-to girl for all things tech and fun!

Excited to connect and explore the endless possibilities of collaboration! Let's make magic together!

## Experience
